WHAT IS PERSONAL DATA?

“Personal data” means any information or pieces of information that could identify you either directly (e.g. your name) or indirectly (e.g. through pseudonymized data such as a unique ID number). This means that personal data includes things like email/home addresses/mobile phone, usernames, profile pictures, personal preferences and shopping habits, user generated content, financial information, and welfare information. It could also include unique numerical identifiers like your computer's IP address or your mobile device's MAC address, as well as cookies.

WHAT DATA DO WE COLLECT FROM YOU AND HOW DO WE USE IT?

L'Oréal believes that you, the consumer, are at the heart of what we do. We love hearing from you, learning about you, and creating and delivering products that you enjoy. And we know that many of you love talking to us. Because of this, there are many ways that you might share your personal data with us, and that we might collect it.

How do we collect or receive your data?

We might collect or receive data from you via our websites, forms, apps, devices, L'Oréal products or brands pages on social media or otherwise. Sometimes you give this to us directly (e.g. when you create an account, when you contact us, when you purchase from our websites/apps or stores/beauty salon), sometimes we collect it (e.g. using cookies to understand how you use our websites/apps) or sometimes we receive your data from other third parties, including other L'Oréal Group entities.

When we collect data, we indicate the mandatory fields via asterisks where such data is necessary for us to:

- perform our contract with you (e.g. to deliver the products you have purchase on our websites/apps);

- provide you with the service you have asked for (e.g. to provide you with a newsletter, birthday offers or account status); or
- comply with legal requirements (e.g. invoicing).

If you do not provide the data marked with an asterisk, this may affect our ability to provide the products and services.

We set out further details in the table below, explaining:

- 1) ***During what interaction your data may be provided or collected?*** This column explains what activity or situation you are involved in when we use or collect your data. For example, whether you are making a purchase, signing up to a newsletter, or browsing a website/app.
- 2) ***What personal data may we receive from you directly or resulting from your interaction with us?*** This column explains what types of data we may collect about you depending on the situation.
- 3) ***How and why we may use it?*** This column explains what we may do with your data and the purposes for collecting it.
- 4) ***What is the legal basis for using your personal data?*** This column explains the reason we may use your data.

Depending on the purpose for which the data is used, the legal basis for the processing of your data can be:

- Your **consent**;
- Our **legitimate interest**, which can be:
 - **Improvement of our products and services:** more specifically, our business interests to help us better understand your needs and expectations and therefore improve our services, websites / Apps / devices, products and brands for our consumers' benefit.
 - **Fraud prevention:** to ensure payment is complete and free from fraud and misappropriation.
 - **Securing our tools:** to keep tools used by you (our websites/Apps/devices) safe and secure and to ensure they are working properly and are continually improving.
- The **performance of a contract:** more specifically to perform the services you request from us; or
- **Legal grounds** where a processing is required by law.

Automated Decision Making

For purposes of securing transactions placed through our websites/apps/devices against fraud and misappropriation, we use third party provider's solution(s). The method of fraud detection is based on, for example, simple comparisons, association, clustering, prediction and outlier detections using intelligent agents, data fusion techniques and various data mining techniques.

This fraud detection process may be completely automated or may involve human intervention where a person takes the final decision. In any case, we take all reasonable precautions and safeguards to limit access to your data.

As a result of automatic fraud detection, you may (i) experience delay in the processing of your order / request whilst your transaction is being reviewed by us; and (ii) be limited or excluded from the benefit of a service if a risk of fraud is identified. You have the right to access information on which we base our decision. Please see "Your Rights and Choices" section below.

Profiling

When we send or display personalised communications or content, we may use some techniques qualified as "profiling" (i.e. any form of automated processing of personal data consisting of using those data to evaluate certain personal aspects relating to a natural person, in particular to analyse or predict aspects concerning that natural person's personal preferences, interests, economic situation, behaviour, location, health, reliability, or movements). This means that we may collect personal data about you in the different scenarios mentioned in the table above. We centralize this data and analyse it to evaluate and predict your personal preferences and/or interests.

Based on our analysis, we send or display communications and/or content tailored to your interests/needs.

You have the right to object to the use of your data for "profiling" in certain circumstances. Please see "Your Rights and Choices" section below.
